What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

- The Issuer is a holding company that does not engage in any material amount of business activities that generate revenues. It services its obligations primarily with dividends and advances from its subsidiaries. If such subsidiaries do not realise sufficient earnings to satisfy applicable regulatory requirements, or if such requirements are changed to further restrict the ability of such subsidiaries to pay dividends to the Issuer, the Issuer's ability to fulfil its obligations under the Securities may be adversely affected, and consequently the value of and return on the Securities may be adversely affected.
- The Issuer may not be able to maintain its current ratings. If a rating agency reduces, suspends or withdraws its rating of the Issuer and/or any affiliate thereof, the liquidity and market value of the Securities are likely to be adversely affected. Qualifications in audit report on historical financial information: There are no qualifications in the audit report of the Guarantor on its audited historical financial information.

Key risks in respect of the Guarantor: The Guarantor is subject to the following key risks:

- The Guarantor is a holding company that does not engage in any material amount of business activities that generate revenues. It services its obligations primarily with dividends and advances from its subsidiaries. Its subsidiaries that operate in the banking, insurance and securities businesses can only pay dividends if they are in compliance with applicable regulatory requirements imposed on them by federal and state regulatory authorities, and may also be subject to credit agreements that may restrict their ability to pay dividends. If such subsidiaries do not realise sufficient earnings to satisfy applicable regulatory requirements, or if such requirements are changed to further restrict the ability of such subsidiaries to pay dividends to the Guarantor, the Guarantor's ability to fulfil its obligations under the Securities may be adversely affected, and consequently the value of and return on the Securities may be adversely affected.
- The Guarantor is expected to act as a source of financial strength for its U.S. insured depository institutions and to commit resources to support such banks. As a result, the Guarantor may be required to commit resources (in the form of investments or loans) to its U.S. insured depository institutions in amounts or at times that could adversely affect its ability to also fulfil its obligations under the Securities, and consequently the value of and return on the Securities.
- The Guarantor may not be able to maintain its current ratings. If a rating agency reduces, suspends or withdraws its rating of the Guarantor and/or any affiliate thereof, the liquidity and market value of the Securities are likely to be adversely affected. In addition, ratings downgrades could have a significant and immediate impact on the Guarantor's funding and liquidity through cash obligations, reduced funding capacity and derivative triggers and additional margin requirements. Ratings downgrades could also have a negative impact on other funding sources, such as secured financing and other margin requirements, for which there are no explicit triggers. A reduction in the Guarantor's or its subsidiaries' credit ratings could also widen the Guarantor's credit spreads or otherwise increase its borrowing costs and limit its access to the capital markets. Any of the foregoing factors may negatively impact the value of and return on the Securities.
- Adequate liquidity and sources of funding are essential to the Guarantor's businesses, and can be significantly and negatively impacted by factors the Guarantor cannot control, such as general disruptions in the financial markets, governmental fiscal and monetary policies, regulatory changes or negative investor perceptions of the Guarantor's creditworthiness. The Guarantor's ability to obtain funding may be impaired if other market participants are seeking to access the markets at the same time, or if market appetite declines, as is likely to occur in a liquidity stress event or other market crisis. A sudden drop in market liquidity could also cause a temporary or lengthier dislocation of underwriting and capital markets activity. In addition, clearing organisations, central banks, clients and financial institutions with which the Guarantor interacts may exercise the right to require additional collateral based on their perceptions or the market conditions, which could further impair the Guarantor's access to and cost of funding. These factors may negatively impact the market value of the Securities.

What are the key risks that are specific to the Securities?

The Securities are subject to the following key risks:

- You should be prepared to sustain a total or partial loss of the purchase price of your Securities. The value of Securities prior to their scheduled termination may vary due to a number of interrelated factors, including the value, dividend yield and volatility of the Underlying(s) and any changes in interim interest rates if applicable, and a sale of Securities prior to their scheduled termination may be at a substantial discount from the original purchase price and you may lose some or all of your investment. If, at maturity, a Termination Barrier Event has occurred and the Final Reference Level of the Final Performance Underlying is less than its Termination Initial Level, the Securities may be terminated for less than your initial investment or even zero.
- The Issuer's obligations under the Securities and the Guarantor's obligations under the deed of guarantee represent general contractual obligations of each respective entity and of no other person. Accordingly, payments under the Securities are subject to the credit risk of the Issuer and the Guarantor. Securityholders will not have recourse to any secured assets of the Issuer and Guarantor in the event that the Issuer or Guarantor is unable to meet its obligations under the Securities, including in the event of an insolvency, and therefore risk losing some or all of their investment.
- Securities may have no established trading market when issued, and one may never develop, so investors should be prepared to hold the Securities until maturity. If a market does develop, it may not be very liquid. Consequently, you may not be able to sell your Securities easily or at all or at prices equal to or higher than your initial investment and in fact any such price may be substantially less than the original purchase price. Illiquidity may have a severely adverse effect on the market value of Securities.
- Amounts due in respect of the Securities are linked to the performance of the Underlying(s), which is a basket of security indices. Global economic, financial and political developments, among other things, may have a material effect on the value of the component securities of, and/or the performance of, the Underlying(s), and in recent years, currency exchange rates and prices for component securities have been highly volatile. This may in turn affect the value of and return on the Securities. Where the Underlying(s) has a decrement feature, the return on such Underlying(s) will be calculated by reinvesting net dividends or gross dividends (depending on the type and rules of such Underlying(s)) paid by its components and by subtracting on a daily basis a pre-defined amount, and this may result in a lower return than that of a traditional "price return" or "total return" index, or a direct investment in the components of the Underlying(s). As the deduction of such pre-defined amount is defined as a fixed number of index points rather than as a percentage of the index level of the Underlying(s), such fixed deduction will have a greater negative impact on the index level of the Underlying(s) in a falling equities market.
- The Securities do not create an actual interest in, or ownership of, an Underlying. A Security will not represent a claim against an Underlying and, in the event that the amount paid on termination of the Securities is less than your investment, you will not have recourse under any relevant Security to an Underlying or other items which may comprise the Underlying(s) in respect of such Securities. You will have no legal or beneficial interest in an Underlying. You may receive a lower return on the Securities than you would have received had you invested directly in an Underlying or through another product.
- Where (i) a benchmark is materially changed, cancelled or its use is prohibited, (ii) any authorisation or similar in respect of a benchmark or its administrator or sponsor has not been, or will not be, obtained or has been, or will be, rejected or similar such that the Issuer or any other entity is not, or will not be, permitted to use the benchmark, (iii) it is not commercially reasonable to continue use of a benchmark due to licensing restrictions or changes in licence costs, or (iv) a supervisor and/or sponsor officially announces a benchmark is no longer representative, or as of a specified future date will no longer be representative, of any relevant underlying market(s) or economic reality that such benchmark is intended to measure, adjustments may be made to the Securities which may include

selecting one or more successor benchmarks and making related adjustments. Alternatively, early termination of the Securities may apply. Any such adjustment may have an adverse effect on the value of, return on or market for the Securities, and if the Securities are early redeemed, the amount repaid to you could be substantially less than your initial investment and you could therefore sustain a loss.

- The terms and conditions of Securities include provisions dealing with the postponement of dates on which the level of an Underlying is scheduled to be taken. Such postponement or alternative provisions for valuation provided in the terms and conditions of the Securities may have an adverse effect on the value of such Securities.
- The calculation agent may make adjustments to the terms of the Securities to account for the effect of certain adjustment events occurring in respect of the Securities or an Underlying and/or hedging arrangements, or may replace an Underlying with a new security index. Any such adjustments may have an adverse effect on the value of such Securities. In certain circumstances (for example, if the calculation agent determines that no calculation, adjustment or substitution can reasonably be made, following an event of default or certain events affecting an Underlying or the Issuer's hedging arrangements, or for reasons relating to taxation or illegality), the Securities may be early terminated. If the Securities are terminated early, the amount paid may be less than your initial investment and you may therefore sustain a loss.
- The effectiveness of the offer of Securities will be conditional upon admission to trading by the issue date. In the event such admission to trading does not take place by the issue date, the Issuer will withdraw the offer, the offer will be deemed to be null and void and the relevant Securities will not be issued. As a consequence, you will not receive any Securities, any subscription rights you have for the Securities will be cancelled and you will not be entitled to any compensation therefor.

KEY INFORMATION ON THE OFFER OF SECURITIES TO THE PUBLIC AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in the Securities?

Terms and conditions of the offer

An offer of the Securities may be made by other than pursuant to Article 1(4) of the EU Prospectus Regulation in the Republic of Italy (the "**Public Offer Jurisdiction**") by the Authorised Offeror during the period commencing on (and including) 8 May 2024 to (and including) 28 May 2024 (the "**Offer Period**").

Investors may apply for the subscription of the Securities during normal Italian banking hours at the offices (*fili*) of Zurich Italy Bank S.p.A. (the "**Distributor**") from (and including) 8 May 2024 to (and including) 28 May 2024, subject to early termination or extension of the Offer Period.

The Securities may be placed in Italy outside the premises of the Distributor ("**door-to-door**"), by means of financial advisors authorised to make off-premises offers (*consulenti finanziari abilitati all'offerta fuori sede*) pursuant to Article 30 of Legislative Decree No. 58 of February 24, 1998, as amended (the "**Financial Services Act**") from (and including) 8 May 2024 to (and including) 21 May 2024 subject to early termination or extension of the Offer Period.

The Securities may also be placed by means of distance communication techniques (*tecniche di comunicazione a distanza*) pursuant to article 32 of the Financial Services Act during the period commencing on (and including) 8 May 2024 to (and including) 14 May 2024, subject to early termination or extension of the Offer Period. In this case, investors may subscribe the Securities, after being identified by the Distributor, by using their personal password/identification codes. Pursuant to Article 67-duodecies of Legislative Decree 206/2005 as amended (the so called "Italian Consumer Code"), the validity and enforceability of the contracts entered into is suspended for a period of fourteen days from the date of the subscription. Within such period investors may communicate their withdrawal to the relevant placer without any charge or commission.

The Offer Price is EUR 1,000 per Security (the "**Issue Price**").

The Issuer reserves the right, in agreement with the Distributor, to increase the number of Securities to be issued during the Offer Period.

The effectiveness of the offer of the Securities is conditional upon the admission to trading of the Securities on the EuroTLX market, a multilateral trading facility organised and managed by Borsa Italiana S.p.A., occurring by the issue date, being 31 May 2024. As between the Authorised Offeror and its customers, offers of the Securities are further subject to such conditions as may be agreed between them and/or as is specified in the arrangements in place between them.

Estimated expenses or taxes charged to investor by issuer/offeror

The Issue Price of EUR 1,000 per Security includes a distribution fee of up to 4.00 per cent. (4.00%) of the Issue Price paid by the Dealer to the Distributor.

The exact amount of the distribution fee will be published not later than five Business Days after close of the Offer Period on the website of the Issuer (<https://it.citifirst.com/Home>).

Who is the offeror and/or the person asking for admission to trading?

See the item entitled "Authorised Offeror(s)" above. The Issuer is the entity requesting for the admission to trading on the EuroTLX Market of the Securities.

Why is the Prospectus being produced?

Use and estimated net amount of proceeds

The net proceeds of the issue of Securities will be used by the Issuer and/or its subsidiaries for general corporate purposes, which include making a profit. The estimated net amount of proceeds is an amount equal to the final number of Securities issued on the issue date multiplied by the issue price per Security.

Underwriting agreement on a firm commitment basis: The offer of the Securities is not subject to an underwriting agreement on a firm commitment basis.

Description of any interest material to the issue/offer, including conflicting interests

Fees are payable to the Distributor. The terms of the Securities confer on the Issuer, the calculation agent and certain other persons discretion in making judgements, determinations and calculations in relation to the Securities. Potential conflicts of interest may exist between the Issuer, calculation agent and holders of the Securities, including with respect to such judgements, determinations and calculations. The Issuer, Citigroup Inc. and/or any of their affiliates may also from time to time engage in transactions or enter into business relationships for their own account and/or possess information which affect or relate to the Securities and/or the Underlying(s). The Issuer, Citigroup Inc. and/or any of their affiliates have no obligation to disclose to investors any such information and may pursue actions and take steps that they deem necessary or appropriate to protect their interests without regard to the consequences for investors. Save as described above, so far as the Issuer is aware, no person involved in the offer of the Securities has an interest material to the offer.

Riserve nella relazione della società di revisione sulle informazioni finanziarie storiche: la relazione della società di revisione dell'Emittente non esprime riserve sulle informazioni finanziarie storiche certificate di quest'ultimo.

Quali sono i principali rischi che sono specifici per l'Emittente?

L'Emittente è soggetto ai seguenti rischi principali:

- L'Emittente è una holding che non si impegna in una quantità significativa di attività commerciali che generano entrate. Esso adempie alle sue obbligazioni principalmente con dividendi e anticipi dalle sue filiali. Le sue filiali che operano nel settore dei titoli possono pagare dividendi solo se sono in conformità con i requisiti normativi applicabili imposti loro dalle autorità di regolamentazione federali e statali, e possono anche essere soggette a contratti di credito che possono limitare la loro capacità di pagare dividendi. Se tali filiali non realizzano utili sufficienti a soddisfare i requisiti normativi applicabili, o se tali requisiti vengono modificati per limitare ulteriormente la capacità di tali filiali di pagare dividendi all'Emittente, la capacità dell'Emittente di adempiere ai propri obblighi ai sensi degli Strumenti Finanziari può subire un effetto negativo, e di conseguenza può avere un effetto negativo sul il valore e sul rendimento degli Strumenti Finanziari.
- L'Emittente potrebbe non essere in grado di mantenere il proprio rating attuale. Qualora un'agenzia di rating riduca, sospenda o ritiri il rating assegnato all'Emittente e/o a una qualunque delle sue collegate, è probabile che la liquidità e il valore di mercato degli Strumenti Finanziari ne risenta. Un declassamento dei rating potrebbe avere un impatto negativo anche su altre fonti di finanziamento, ad esempio il finanziamento garantito e altri requisiti di margine, per le quali non esistono trigger espliciti.

Fattori di rischio associati al Garante:

Il Garante è soggetto ai seguenti rischi principali:

- Il Garante è una holding che non si impegna in alcuna significativa attività commerciale che generi entrate. Esso adempie alle sue obbligazioni principalmente con dividendi e anticipi dalle sue filiali. Le sue filiali che operano nel settore dei titoli possono pagare dividendi solo se sono in conformità con i requisiti normativi applicabili imposti loro dalle autorità di regolamentazione federali e statali, e possono anche essere soggette a contratti di credito che possono limitare la loro capacità di pagare dividendi. Se tali filiali non realizzano utili sufficienti a soddisfare i requisiti normativi applicabili, o se tali requisiti vengono modificati per limitare ulteriormente la capacità di tali filiali di pagare dividendi al Garante, la capacità del Garante di adempiere ai propri obblighi ai sensi degli Strumenti Finanziari può subire un effetto negativo, e di conseguenza può avere un effetto negativo sul il valore e sul rendimento degli Strumenti Finanziari.
- Ci si aspetta che il Garante agisca come fonte di forza finanziaria per i suoi istituti di deposito assicurati negli Stati Uniti e che impegni risorse per sostenere tali banche. Di conseguenza, al Garante può essere richiesto di impegnare risorse (sotto forma di investimenti o prestiti) per i suoi istituti di deposito assicurati negli Stati Uniti in quantità o in tempi che potrebbero influire negativamente sulla sua capacità di adempiere anche ai suoi obblighi ai sensi degli Strumenti Finanziari, e di conseguenza sul valore e sul rendimento degli Strumenti Finanziari.
- Il Garante potrebbe non essere in grado di mantenere il proprio rating attuale. Qualora un'agenzia di rating riduca, sospenda o ritiri il rating assegnato al Garante e/o a una qualunque delle sue collegate, è probabile che la liquidità e il valore di mercato degli Strumenti Finanziari ne risentano. Inoltre, un declassamento dei rating potrebbe avere un impatto significativo ed immediato sul finanziamento e sulla liquidità del Garante attraverso obblighi di cassa, capacità di finanziamento ridotta e *trigger* di derivati e requisiti di margine aggiuntivi. Il declassamento dei rating potrebbe anche avere un impatto negativo su altre fonti di finanziamento, come i finanziamenti garantiti e altri requisiti di margine, per i quali non esistono trigger espliciti. Una riduzione dei rating di credito del Garante o delle sue controllate potrebbe anche ampliare gli spread di credito del Garante o altrimenti aumentare i suoi costi di finanziamento e limitare il suo accesso ai mercati dei capitali. Ognuno dei suddetti fattori potrebbe avere un impatto negativo sul valore e sul rendimento degli Strumenti Finanziari.
- Un'adeguata liquidità e fonti di finanziamento sono essenziali per le attività del Garante e possono essere significativamente e negativamente influenzate da fattori che il Garante non può controllare, come ad esempio perturbazioni generali dei mercati finanziari, politiche fiscali e monetarie governative, cambiamenti normativi o percezioni negative degli investitori sull'affidabilità creditizia del Garante. La capacità del Garante di ottenere finanziamenti può essere compromessa se altri partecipanti al mercato cercano di accedere ai mercati nello stesso momento, o se l'appetito del mercato diminuisce, come è probabile che accada in un evento di stress da liquidità o in un'altra crisi di mercato. Un improvviso calo della liquidità di mercato potrebbe anche causare una temporanea o più lunga dislocazione delle attività di sottoscrizione e dei mercati dei capitali. Inoltre, gli organismi di compensazione, le banche centrali, i clienti e le istituzioni finanziarie con cui il Garante interagisce possono esercitare il diritto di richiedere ulteriori garanzie in base alla loro percezione o alle condizioni di mercato, il che potrebbe compromettere ulteriormente l'accesso e il costo di finanziamento del Garante. Questi fattori potrebbero avere un impatto negativo sul valore di mercato degli Strumenti Finanziari.

Quali sono i rischi principali che sono specifici per gli Strumenti Finanziari?

Gli Strumenti Finanziari sono soggetti ai seguenti principali rischi:

- Dovete essere pronti a sostenere una perdita totale o parziale del prezzo di acquisto dei vostri Strumenti Finanziari. Il valore degli Strumenti Finanziari prima del loro rimborso programmato può variare a causa di una serie di fattori interconnessi, tra cui il valore, il rendimento dei dividendi e la volatilità del/i Sottostante/i e qualsiasi cambiamento nei tassi di interesse intermedi, se applicabili, e una vendita degli Strumenti Finanziari prima del loro rimborso programmato può avvenire ad uno sconto sostanziale rispetto al prezzo di acquisto originale e si può perdere parte o tutto il proprio investimento. Se, alla scadenza, si è verificato un Evento Barriera di Regolamento ed il Livello di Riferimento Finale del Sottostante della Performance Finale è inferiore al suo Livello Iniziale di Regolamento, gli Strumenti Finanziari potrebbero essere rimborsati inferiormente rispetto al vostro investimento iniziale o addirittura zero.
- Gli obblighi dell'Emittente ai sensi degli Strumenti Finanziari e gli obblighi del Garante previsti dall'atto di garanzia rappresentano obblighi contrattuali generali per ciascuna rispettiva entità e nessun'altra persona. Di conseguenza, i pagamenti effettuati ai sensi degli Strumenti Finanziari sono esposti al rischio di credito dell'Emittente e del Garante. I portatori degli Strumenti Finanziari non potranno fare ricorso ad alcuna attività garantita dell'Emittente e del Garante nel caso in cui l'Emittente o il Garante non siano in grado di soddisfare gli obblighi che loro competono ai sensi degli Strumenti Finanziari, neanche in caso di insolvenza, e quindi rischiano di perdere una parte o la totalità del proprio investimento.
- Gli Strumenti Finanziari potrebbero non avere un mercato di negoziazione consolidato al momento dell'emissione e tale mercato potrebbe non svilupparsi mai. Di conseguenza, gli investitori devono essere pronti a detenere gli Strumenti Finanziari fino alla scadenza. Qualora un mercato si sviluppasse, potrebbe non essere molto liquido. Di conseguenza, l'investitore potrebbe incontrare difficoltà a vendere facilmente i propri Strumenti Finanziari o potrebbe non riuscirvi affatto o potrebbe essere in grado di venderli a prezzi pari o superiori all'investimento iniziale o, ancora, tale prezzo potrebbe essere sostanzialmente inferiore al prezzo di acquisto originale. L'illiquidità può incidere in misura negativa rilevante sul valore di mercato degli Strumenti Finanziari.
- Gli importi dovuti a fronte degli Strumenti Finanziari sono legati all'andamento del(i) Sottostante(i), che è un paniere di security indices. Gli sviluppi economici, finanziari e politici globali, tra le altre cose, possono avere un effetto materiale sul valore degli strumenti finanziari componenti il Sottostante (o i Sottostanti), e/o sulla performance dello stesso, e negli ultimi anni, i tassi di cambio delle valute e i prezzi dei titoli componenti sono stati altamente volatili. Ciò può a sua volta influenzare il valore e il rendimento degli Strumenti Finanziari. Se il(i) Sottostante(i) ha(hanno) una funzione di decremento, il rendimento di tale(i) Sottostante(i) sarà calcolato reinvestendo i dividendi netti o i dividendi lordi (a seconda del tipo e delle regole di tale(i) Sottostante(i)) pagati dai suoi componenti e sottraendo su base giornaliera un importo predefinito, e ciò può comportare un rendimento inferiore a quello di un indice tradizionale "price return" o "total return", o di un investimento diretto nei componenti del(i) Sottostante(i). Poiché la deduzione di tale importo predefinito è definita come un numero fisso di punti indice piuttosto che come una percentuale del livello dell'indice del(i) Sottostante(i), tale deduzione fissa avrà un maggiore impatto negativo sul livello dell'indice del(i) Sottostante(i) in un mercato azionario in ribasso.
- Gli Strumenti Finanziari non creano una partecipazione effettiva in, o la proprietà di, un Sottostante. Uno Strumento Finanziario non rappresenterà un credito nei confronti di un Sottostante e, nel caso in cui l'importo pagato al momento del regolamento degli Strumenti Finanziari sia inferiore al vostro investimento, non potrete ricorrere ad un Sottostante in relazione a tali Strumenti Finanziari o altri elementi che possono costituire il(i) Sottostante(i). Non avrete alcun interesse o beneficio legale in un Sottostante. Potreste ricevere un rendimento sugli Strumenti Finanziari inferiore a quello che avreste ricevuto se aveste investito direttamente in un Sottostante o attraverso un altro prodotto.
- Laddove (i) un benchmark sia materialmente modificato, cancellato o il suo utilizzo sia proibito, (ii) qualsiasi autorizzazione o simile rispetto ad un benchmark o al suo amministratore o sponsor non sia stata, o non sarà, ottenuta o sia stata, o sarà, rifiutata o simile in modo tale che l'Emittente o qualsiasi altra entità non sia, o non sarà, autorizzato/a ad utilizzare il benchmark, (iii) non sia commercialmente ragionevole continuare ad utilizzare un benchmark a causa di restrizioni di licenza o cambiamenti nei costi di licenza o (iv) un supervisore e/o sponsor annuncia ufficialmente che un benchmark non è più rappresentativo, o a partire da una data futura specificata non sarà più rappresentativo, di alcun mercato o realtà economica

sottostante rilevante che tale benchmark è destinato a misurare, possono essere apportate rettifiche agli Strumenti Finanziari che possono includere la selezione di uno o più benchmark successivi e le relative rettifiche. In alternativa, può essere applicato il rimborso anticipato degli Strumenti Finanziari. Qualsiasi aggiustamento di questo tipo può avere un effetto negativo sul valore, sul rendimento o sul mercato degli Strumenti Finanziari, e se gli Strumenti Finanziari vengono rimborsati anticipatamente, l'importo rimborsato potrebbe essere sostanzialmente inferiore al vostro investimento iniziale e potreste quindi sostenere una perdita

- I termini e le condizioni degli Strumenti Finanziari includono disposizioni relative al rinvio delle date in cui si prevede di ottenere il livello di un Sottostante. Tale rinvio o disposizioni alternative di valutazione previste nei termini e condizioni degli Strumenti Finanziari possono avere un effetto negativo sul valore di tali Strumenti Finanziari.
- L'agente di calcolo può effettuare rettifiche alle condizioni degli Strumenti Finanziari per tenere conto dell'effetto di alcuni eventi di rettifica che si verificano in relazione agli Strumenti Finanziari o ad un Sottostante e/o ad accordi di copertura, o può sostituire un Sottostante con un nuovo security index. Tali rettifiche possono avere un effetto negativo sul valore di tali Strumenti Finanziari. In determinate circostanze (ad esempio, se l'agente di calcolo determina che non è ragionevolmente possibile effettuare alcun calcolo, aggiustamento o sostituzione, a seguito di un evento di default o di determinati eventi che influenzano un Sottostante o gli accordi di copertura dell'Emittente, o per ragioni relative alla tassazione o all'illegalità), gli Strumenti Finanziari possono essere regolati anticipatamente. Se gli Strumenti Finanziari vengono regolati anticipatamente, l'importo pagato potrebbe essere inferiore al vostro investimento iniziale e potreste quindi subire una perdita.
- L'efficacia dell'offerta degli Strumenti Finanziari sarà subordinata all'ammissione alla negoziazione entro la data di emissione. Nel caso in cui tale ammissione alla negoziazione non avvenga entro la data di emissione, l'Emittente ritirerà l'offerta, l'offerta sarà considerata nulla e non valida e i relativi Strumenti Finanziari non saranno emessi. Di conseguenza, non riceverete alcuno Strumento Finanziario, i diritti di sottoscrizione degli Strumenti Finanziari saranno cancellati e non avrete diritto ad alcun indennizzo.
