

PROHIBITION OF SALES TO UK RETAIL INVESTORS – The Securities are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the United Kingdom ("UK"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended, the "EUWA"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (as amended, the "FSMA") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA and regulations made thereunder (the "**UK Prospectus Regulation**"). Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA (as amended, the "UK PRIIPs Regulation") for offering or selling the Securities or otherwise making them available to retail investors in the United Kingdom has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the United Kingdom may be unlawful under the UK PRIIPs Regulation. Notwithstanding the above paragraph, in the case where the Issue Terms in respect of any Securities include a legend entitled "Prohibition of Sales to UK Retail Investors" but where the Issuer subsequently prepares and publishes a key information document under the UK PRIIPs Regulation in respect of such Securities, then following such publication, the prohibition on the offering, sale or otherwise making available the Securities to a retail investor in the United Kingdom as described in the above paragraph and in such legend shall no longer apply.

The Securities do not constitute a participation in a Collective Investment Scheme within the meaning of the Swiss Federal Act on Collective Investment Schemes ("CISA"). The Securities are neither subject to the authorisation nor to the supervision by the Swiss Financial Market Supervisory Authority FINMA and investors do not benefit from the specific investor protection provided under the CISA. Investors should be aware that they are exposed to the credit risk of the Issuer.

9. UNITED STATES TAX CONSIDERATIONS

Section 871(m) Withholding Tax

The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Certificates, the Certificates will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Certificates for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Certificates.

Classification for U.S. Tax Purposes

We have determined that there is a material risk that the Certificates will not be treated as a debt instrument, but will rather be treated as a forward or derivative contract, for United States federal income tax purposes. In light of this possibility, we intend to treat the Certificates in the manner described under "*United States Tax Considerations – Securities Issued by GSG – Securities that are not Classified as Debt for United States Tax Purposes*" in the Base Prospectus. If the Certificates bear periodic coupons, then, due to uncertainty regarding the U.S. withholding tax treatment of coupon payments on Certificates that are not treated as debt, it is expected that withholding agents will (and we, if we are the withholding agent, intend to) withhold on coupon payments on the Certificates at a 30 per cent. rate or at a lower rate specified by an applicable income tax treaty under an "other income" or similar provision. No additional amounts will be paid for such withholding tax by us or by the applicable withholding agent. Amounts paid upon the redemption or maturity of the Certificates (other than any periodic coupons that are paid at such time) are not expected to be subject to U.S. withholding tax and, if we (including any of our affiliates) are the withholding agent, we do not intend to withhold on such amounts. You should consult your own tax advisor regarding the U.S. tax consequences of purchasing, holding and disposing of the Certificates.

In addition, a Coupon Amount per Certificate will be payable on the Coupon Payment Date immediately following such Valuation Date, and such Coupon Amount will be an amount in the Settlement Currency equal to the *difference* between (i) the *product* of (a) the Calculation Amount, *multiplied* by (b) 0.1672, *minus* (ii) the Coupon Amount (if any) per Certificate previously paid on the Coupon Payment Date preceding such Valuation Date.

Example 2 – no Automatic Early Exercise and Coupon Amount: *The Reference Price of the Underlying Asset for the second Valuation Date is less than the Autocall Level but greater than or equal to the Coupon Barrier Level.*

In this Example, the Certificates will not be automatically exercised on such Valuation Date. A Coupon Amount per Certificate will be payable on the Coupon Payment Date immediately following such Valuation Date, and such Coupon Amount will be an amount in the Settlement Currency equal to the *difference* between (i) the *product* of (a) the Calculation Amount, *multiplied* by (b) 0.1672, *minus* (ii) the Coupon Amount (if any) per Certificate previously paid on the Coupon Payment Date preceding such Valuation Date.

The Settlement Amount payable per Certificate (of the Calculation Amount) on the Maturity Date will be an amount in the Settlement Currency equal to the Calculation Amount, i.e., EUR 100. In addition, a Coupon Amount per Certificate will be payable on the Coupon Payment Date immediately following such Valuation Date, and such Coupon Amount will be an amount in the Settlement Currency equal to the *difference* between (i) the *product* of (a) the Calculation Amount, *multiplied* by (b) 0.3344, *minus* (ii) the *aggregate* of the Coupon Amounts (if any) per Certificate previously paid on the Coupon Payment Dates preceding such Valuation Date.

Example 5 – Negative Scenario: The Certificates have not been automatically exercised early on an Applicable Date and the Final Closing Price in respect of the Underlying Asset is 69 per cent. (69%) of the Asset Initial Price.

The Settlement Amount payable per Certificate (of the Calculation Amount) on the Maturity Date will be the greater of (i) 69 per cent. (69%) of the Calculation Amount and (ii) the Downside Floor, i.e., EUR 69. No Coupon Amount will be payable on the Coupon Payment Date immediately following such Valuation Date. **In this Example, an investor who purchased the Certificates at the Issue Price will sustain a substantial loss of the amount originally invested in the Certificates.**

What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

- The payment of any amount due on the Securities is subject to the credit risk of the Issuer. The Securities are the Issuer's unsecured obligations. Investors are dependent on the Issuer's ability to pay all amounts due on the Securities, and therefore investors are subject to the Issuer's credit risk and to changes in the market's view of the Issuer's creditworthiness. The Securities are not bank deposits, and they are not insured or guaranteed by any compensation or deposit protection scheme. The value of and return on the Securities will be subject to the Issuer's credit risk and to changes in the market's view of the Issuer's creditworthiness.
- The Issuer is the parent holding company of the group of companies comprising Goldman Sachs. Goldman Sachs is a leading global investment banking, securities and investment management firm that faces a variety of significant risks which may affect the Issuer's ability to fulfil its obligations under the Securities, including market and credit risks, liquidity risks, business activities and industry risks, operational risks and legal, regulatory and reputational risks.
- The Issuer may become subject to an orderly liquidation authority for the purposes of liquidation if it is determined

to be in severe financial distress, and the receiver appointed under such orderly liquidation authority may exercise certain powers such as disregarding the strict priority of a claim made by a creditor of the Issuer or applying certain administrative procedures to determine a creditor's claims. The rights available to a holder as a creditor of the Issuer would be substantially different to potential rights available under ordinary bankruptcy proceedings in the United States.

- Investors are exposed to the credit risk of the Issuer and its subsidiaries since the assets of the Issuer consist principally of interests in its subsidiaries. The Issuer's right as a shareholder to benefit in any distribution of assets of any of its subsidiaries upon the subsidiary's liquidation or otherwise, is junior to the creditors of the Issuer's subsidiaries. As a result, investors' ability to benefit from any distribution of assets of any of the Issuer's subsidiaries upon the subsidiary's liquidation or otherwise, is junior to the creditors of the Issuer's subsidiaries. Any liquidation or otherwise of a subsidiary of the Issuer may result in the Issuer being liable for the subsidiary's obligations which could reduce its assets that are available to satisfy its obligations under the Securities.

Non-scheduled scheduled Early Repayment Amount: The Securities may be redeemed prior to the scheduled maturity:

- at the Issuer's option (a) if the Issuer determines a change in applicable law has the effect that performance by the Issuer or its affiliates under the Securities or hedging transactions relating to the Securities has become (or there is a substantial likelihood in the immediate future that it will become) unlawful or impracticable (in whole or in part), or (b) where applicable, if the Calculation Agent determines that certain additional disruption events or adjustment events as provided

in the terms and conditions of the Securities have occurred; or (ii) upon notice by a Holder declaring such Securities to be immediately repayable due to the occurrence of an event of default which is continuing.

In such case, the Non-scheduled Early Repayment Amount payable on such unscheduled early redemption shall be, for each Security, an amount representing the fair market value of the Security taking into account all relevant factors less all costs incurred by the Issuer or any of its affiliates in connection with such early redemption, including those related to unwinding of any underlying and/or related hedging arrangement. ***The Non-scheduled Early Repayment Amount may be less than your initial investment and therefore you may lose some or all of your investment on an unscheduled early redemption.***

Governing law: The Securities are governed by English law.

Status of the Securities: The Securities are unsubordinated and unsecured obligations of the Issuer and will rank equally among themselves and with all other unsubordinated and unsecured obligations of the Issuer from time to time outstanding.

Description of restrictions on free transferability of the Securities:

The Securities have not been and will not be registered under the U.S. Securities Act of 1933 (the "**Securities Act**") and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws.

No offers, sales or deliveries of the Securities, or distribution of any offering material relating to the Securities, may be made in or from any jurisdiction except in circumstances that will result in compliance with any applicable laws and regulations.

Subject to the above, the Securities will be freely transferable.

Where will the Securities be traded?

Application will be made by the Issuer (or on its behalf) for the Securities to be listed and admitted to trading on the EuroTLX market, a multilateral trading facility organised and managed by Borsa Italiana S.p.A. (the "**EuroTLX Market**") with effect from at the earliest the Issue Date.

What are the key risks that are specific to the Securities?

Risk factors associated with the Securities: The Securities are subject to the following key risks:

- The value and quoted price of your Securities (if any) at any time will reflect many factors and cannot be predicted.
- Depending on the performance of the Underlying Asset, you may lose some or almost all of your investment.

- The market price of your Securities prior to maturity may be significantly lower than the purchase price you pay for them. Consequently, if you sell your Securities before the stated scheduled redemption date, you may receive far less than your original invested amount.
- Your Securities may be redeemed in certain extraordinary circumstances set out in the conditions of the Securities prior to scheduled maturity and, in such case, the early redemption amount paid to you may be less than the amount you paid for the Securities.
- The principal repaid at maturity will not provide protection from the effect of inflation. After adjustment for inflation, the real return (or yield) on the Securities at maturity could be negative. Accordingly, inflation may have a negative effect on the value of and return on the Securities.

Risks relating to certain features of the Securities:

- The terms and conditions of your Securities provide that the Securities are subject to a cap. Therefore, your ability to participate in any change in the value of the Underlying Asset over the term of the Securities will be limited, no matter how much the price of the Underlying Asset may rise beyond the cap level over the life of the Securities. Accordingly, the return on your Securities may be significantly less than if you had purchased the Underlying Asset directly.

Risks relating to the Underlying Asset:

- *The value of and return on your Securities depends on the performance of the Underlying Asset.* The return on your Securities depends on the performance of the Underlying Asset. The level of the Underlying Asset may be subject to unpredictable change over time. This degree of change is known as "volatility". The volatility of the Underlying Asset may be affected by national and international financial, political, military or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of and return on the Securities. Volatility does not imply direction of the level of the Underlying Asset, though an Underlying Asset that is more volatile is likely to increase or decrease in value more often and/or to a greater extent than one that is less volatile.
- *Past performance of the Underlying Asset is not indicative of future performance.* You should not regard any information about the past performance of the Underlying Asset as indicative of the range of, or trends in, fluctuations in the Underlying Asset that may occur in the future. The Underlying Asset may perform differently (or the same) as in the past, and this could have material adverse effect on the value of and return on your Securities.
- Equity indices are comprised of a synthetic portfolio of shares, and as such, the performance of the Index is dependent upon the macroeconomic factors relating to the shares that underlie such Index, such as interest and price levels on the capital markets, currency developments, political factors as well as company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy, as well as the index composition, which may change over time.

Quali sono i principali rischi che sono specifici per l'Emittente?

L'Emittente è soggetto ai seguenti rischi principali:

- Il pagamento di qualsiasi importo dovuto sugli Strumenti Finanziari è soggetto al rischio di credito dell'Emittente. Gli Strumenti Finanziari sono obbligazioni non garantite dell'Emittente. Gli investitori dipendono dalla capacità dell'Emittente di versare tutti gli importi dovuti sugli Strumenti Finanziari, e pertanto gli investitori sono soggetti al rischio di credito dell'Emittente e ai cambiamenti nella visione di mercato del merito di credito dell'Emittente. Gli Strumenti Finanziari non sono depositi bancari, e non sono assicurati o garantiti da alcuno schema di protezione di compensazione o deposito. Il valore e il rendimento sugli Strumenti Finanziari saranno soggetti al rischio di credito dell'Emittente e ai cambiamenti nella visione di mercato del merito di credito dell'Emittente.
- L'Emittente è la holding capogruppo del gruppo di società che comprende Goldman Sachs. Goldman Sachs è una società *leader* a livello mondiale nel settore dell'*investment banking*, della gestione degli investimenti e dei titoli e fa fronte ad una varietà di importanti rischi che potrebbero pregiudicare la capacità dell'Emittente di adempiere ai propri obblighi relativi agli Strumenti Finanziari, inclusi i rischi di mercato e di credito, rischi di liquidità, rischi legati all'attività e all'industria, rischi operative e rischi legali, regolamentari e reputazionali.
- L'Emittente può essere soggetto a un'autorità di liquidazione ordinata ai fini della liquidazione se si determina che si trova in gravi difficoltà finanziarie, e il curatore nominato ai sensi di tale autorità di liquidazione ordinata può esercitare determinati poteri, come ad esempio ignorare la stretta priorità di un credito fatto da un creditore dell'Emittente o applicare determinate procedure amministrative per determinare i crediti di un creditore. I diritti a disposizione di un possessore in qualità di creditore dell'Emittente sarebbero sostanzialmente diversi dai potenziali diritti disponibili nell'ambito di una procedura fallimentare ordinaria negli Stati Uniti.
- Gli investitori sono esposti al rischio di credito dell'Emittente e delle sue controllate in quanto il dell'Emittente è costituito principalmente da partecipazioni nelle sue controllate. Il diritto dell'Emittente, in qualità di azionista, di beneficiare di qualsiasi distribuzione del patrimonio di una delle sue controllate in caso di liquidazione della controllata o in altro modo è subordinato ai creditori delle controllate dell'Emittente. Di conseguenza, la capacità degli investitori di trarre vantaggio da qualsiasi distribuzione di attività di una qualsiasi delle controllate dell'Emittente al momento della liquidazione della controllata o in altro modo è subordinata ai creditori delle controllate dell'Emittente. La liquidazione o altrimenti di una controllata dell'Emittente può comportare la responsabilità dell'Emittente per gli obblighi della controllata, il che potrebbe ridurre i suoi attivi disponibili per soddisfare gli obblighi derivanti dagli Strumenti Finanziari.

Legge applicabile: Gli Strumenti Finanziari sono regolati dal diritto inglese.

Stato degli Strumenti Finanziari: Gli Strumenti Finanziari sono obbligazioni non subordinate e non garantite dell'Emittente e si classificheranno allo stesso modo tra di loro e con tutte le altre obbligazioni non subordinate e non garantite dell'Emittente di volta in volta in essere.

Descrizione delle restrizioni alla libera trasferibilità degli Strumenti Finanziari: Gli Strumenti Finanziari non sono stati e non saranno registrati ai sensi dello U.S. Securities Act del 1933 (il "**Securities Act**") e non possono essere offerti o venduti all'interno degli Stati Uniti o a, o per conto o a beneficio di, persone statunitensi, tranne che in alcune operazioni esenti dagli obblighi di registrazione del Securities Act e dalle leggi statali applicabili in materia di strumenti finanziari. Nessuna offerta, vendita o consegna degli Strumenti Finanziari, o distribuzione di qualsiasi materiale d'offerta relativo agli Strumenti Finanziari, può essere effettuata in o da qualsiasi giurisdizione, salvo in circostanze che risultino conformi alle leggi e ai regolamenti applicabili. Fermo restando quanto sopra, gli Strumenti Finanziari saranno liberamente trasferibili.

Dove verranno negoziati gli Strumenti Finanziari?

Sarà presentata dall'Emittente (o verrà presentata per suo conto) una richiesta di quotazione e ammissione alle negoziazioni degli Strumenti Finanziari sul mercato EuroTLX, un sistema multilaterale di negoziazione organizzato e gestito da Borsa Italiana S.p.A. (il "**Mercato EuroTLX**") con effetto dalla Data di Emissione.

Quali sono i rischi principali che sono specifici per gli Strumenti Finanziari?

Fattori di rischio associati agli Strumenti Finanziari: Gli Strumenti Finanziari sono soggetti ai seguenti principali rischi:

- Il valore ed il prezzo stimato dei Vostri Strumenti Finanziari (se del caso) in qualsiasi momento dipenderanno da molti fattori che non potranno essere prevedibili.
- A seconda della performance dell'Attività Sottostante, potreste perdere una parte o quasi tutto il vostro investimento.
- Il prezzo di mercato dei Vostri Strumenti Finanziari prima della scadenza può essere significativamente inferiore al prezzo di acquisto pagato. Di conseguenza, se vendete i Vostri Strumenti Finanziari prima della data di rimborso prevista, potreste ricevere molto meno dell'importo investito inizialmente.
- I Vostri Strumenti Finanziari possono essere rimborsati in alcune circostanze straordinarie indicate nelle condizioni degli Strumenti Finanziari prima della scadenza prevista e, in tal caso, l'importo del rimborso anticipato pagato a voi potrebbe essere inferiore all'importo che avete pagato per gli Strumenti Finanziari.
- Il capitale rimborsato alla scadenza non proteggerà dall'effetto dell'inflazione. Dopo la correzione per l'inflazione, il rendimento reale (o rendimento) degli Strumenti Finanziari alla scadenza potrebbe essere negativo. Di conseguenza, l'inflazione può avere un effetto negativo sul valore e sul rendimento degli Strumenti Finanziari.

Rischi relativi a determinate caratteristiche degli Strumenti Finanziari:

I termini e le condizioni dei Vostri Strumenti Finanziari prevedono che gli Strumenti Finanziari siano soggetti ad un *cap*. Pertanto, la Vostra capacità di partecipare in qualsiasi cambiamento nel valore dell'Attività Sottostante per tutta la durata degli Strumenti Finanziari sarà limitata, a prescindere da quanto il livello dell'Attività Sottostante sia superiore al livello del *cap* nel corso della vita degli Strumenti Finanziari. Di conseguenza, il rendimento sui Vostri Strumenti Finanziari potrebbe essere significativamente inferiore a quello che sarebbe stato se aveste acquistato l'Attività Sottostante direttamente.

Rischi relativi all'Attività Sottostante:

- *Il valore ed il rendimento dei Vostri Strumenti Finanziari dipendono dall'andamento dell'Attività Sottostante.* Il rendimento dei Vostri Strumenti Finanziari dipende dall'andamento dell'Attività Sottostante. Il livello dell'Attività Sottostante può essere soggetto nel tempo a modifiche imprevedibili. Questo grado di cambiamento è noto come "volatilità". La volatilità dell'Attività Sottostante può essere condizionata da eventi nazionali ed internazionali di natura finanziaria, politica, militare o economica, incluse azioni governative, o da azioni da parte dei partecipanti al mercato rilevante. Uno qualunque di questi eventi o azioni può influenzare negativamente il valore ed il rendimento degli Strumenti Finanziari. La volatilità non implica una direzione del livello dell'Attività Sottostante, anche se un'Attività Sottostante che è più volatile è più probabile che aumenti o diminuisca di valore più spesso e/o in misura maggiore rispetto ad una che è meno volatile.
- *L'andamento passato dell'Attività Sottostante non è indicativo dell'andamento futuro.* Non dovete considerare informazioni relative all'andamento passato dell'Attività Sottostante come indicative del *range*, delle tendenze, o di fluttuazioni dell'Attività Sottostante che possano verificarsi in futuro. L'Attività Sottostante può avere un andamento diverso (o uguale) rispetto al passato, e ciò può avere un significativo effetto negativo sul valore e sul rendimento dei Vostri Strumenti Finanziari.
- Gli indici azionari sono composti da un portafoglio sintetico di azioni, e pertanto, l'andamento dell'Indice dipende da fattori macroeconomici relativi alle azioni sottostanti tale Indice, quali livelli di interesse e prezzo sui mercati dei capitali, sviluppi valutari e fattori politici così come da fattori specifici relativi alle società come utili, posizione di mercato, situazione di rischio, struttura azionaria e politica di distribuzione, così come pure dalla composizione dell'indice, che può variare nel tempo.

Come tra il Collocatore e i suoi clienti, le offerte degli Strumenti Finanziari sono soggette alle condizioni che possono essere concordate tra loro e/o come specificato negli accordi in essere tra di loro.
